

Curriculum Vitae

Full Name **Firoozeh Sajjadi**

Date of birth: 30 Jun 1966

Place of birth: Borujerd

Sex: Female

Marital status: Married

Nationality: Iranian

Residency Iran

Department: Nutrition

Affiliation Isfahan Cardiovascular Research Center (ICRC) (WHO Collaborating Center in the EMR), Cardiovascular Research Institute, Isfahan University of Medical Sciences

Office address: Cardiovascular Research Institute, Chamran Hospital, 3rd Moshtagh St., Isfahan, Iran

Office Phone + 98-31- 33377883

Office fax: + 98-31-33373435

E-mail: Firoozehsajjadi2002@yahoo.com

Publications

Books:

No	Title	Year
1.	Translation of "Epidemiology in Medicine" by GH Henkin Z, JE Booring	1996
2.	Healthy Cooking for Having Healthy Heart	2002
3.	Health Nutrition in Preventive Cardiovascular Disease	2006
4.	Hypertension and Diabetes situation in the Eastern Mediterranean Region: with special Reference to Iran. In: Frontiers in cardiovascular Health	2003

Published Papers:

International Journals (Indexed: Pubmed/ ISI): (* corresponding author)

Research plans

1. studying connection between prevalence of coronary artery disease and vitamin D serum level in female carpet weavers
2. studying amount of sodium chloride uptake in people aged over 20-60 years old in Isfahan
3. Determining the nutritional composition of the fishes bred in Isfahan country concerning the major nutrients especially fatty acids
4. The amounts of different kind of dietary fiber in adults of Isfahan
5. The effect of modified fat diet in pregnant and lactant women on fatty acid of breast milk

6. Comparative evaluation of the results of cardiac rehabilitation in Isfahan Cardiovascular Research Center and at home and control group
7. study and compare the effects of sunflower oil ,hydrogenated vegetable oil and animal ghee on blood lipids in a regular diet in men
8. Healthy food for healthy community
9. Women Healthy Heart Project
10. Isfahan exercise projected
11. Improving bread cooking with whole in Isfahan city
12. Assessment the efficacy of two diet regimens for obese parent and children in comparison to controls
13. comprehensive out-patient stroke rehabilitation and secondary prevention

14. Assessment of the efficacy of a dairy-rich diet on weight reduction of obese children
15. Validation of a food frequency questionnaire for assessment of fruit and vegetable intake in adults
16. Healthy life for cardiovascular patients (HLCP)
17. Evaluation the effect of studying an education of "heart health book" in literacy campaign on peractice of illiterate women
18. Health improvement of Mobarake Steel Industries: Studying the effect of nutritional interventions on cardiovascular disease risk factors in Mobarake Steel Industries
19. comparing the effect of sunflower oil mixed unhydrogenated oil (new), traditional and Palcam animal ghee,semihydrogenated oil and soft margarine with hydrogenated oil on serum lipids of healthy adult men

20. Determining the amount of trans fatty acid intake in urban adults of Isfahan, Najaf-abad and Arak in 2000-2001
21. Validation of food frequency questionnaire for assessment of food groups in adults of Isfahan

22. food consumption survey by 24-hour recall in adults of Isfahan, Najaf-Abad and Arak cities in 2007
23. Short-term and long-term effects of pomegranate juice consumption in endothelium function and inflammatory factors in hypertensive patients
24. Food consumption survey by 24-hour recall in Isfahan Cohort Samples of Isfahan, Najaf-Abad and Arak counties in 2007
25. chemical analysis of date concentrates and replace it as a sweetener in food industry
26. food consumption survey by 24-hour recall in adolescence of Isfahan, Najaf-Abad and Arak counties in 2007
27. measuring the amount of sodium, color and salt in major food sources of salt in Iran population
28. evaluation of urinary sodium in adult & children in Isfahan urban area
29. the impact of educational and encouragement interventions of weight reduction on anthropometric and biomarker indicators in overweight and obese population
30. the impact of educational and encouragement interventions of weight reduction on anthropometric indicators prelipin level in overweight and obese population
31. validity and reproducibility of food frequency questionnaire for assessment of sodium intake, food group contribution in sodium intake and the association with blood pressure in an Iranian population
32. validity and reproducibility of food frequency questionnaire for assessment of sodium intake, food group contribution in sodium intake and the association with blood pressure in an Iranian population
33. the effect of a combined exercise training program (MRT and HIIT) with nutritional advice on lipid profile, obesity parameter and quality of life in obese and overweight children and teenagers
34. Design and Feasibility of a simple mobile application based on standard components of cardiac rehabilitation program for ischemic heart patients
35. Evaluating the effect of nutritional interventions on knowledge and attitude of

operators

36. Restaurant staff and a suitable platform for integrating interventions
37. Evaluation of food consumption by 24-hour recall method in children Isfahan, Najafabad and Arak
38. Launching bakeries providing healthy bread
39. Production of healthy food products by food industry factories
40. Formulation corrections and how to prepare sweets in confectionery supply units Healthy
41. Teaching healthy eating habits to general population
42. Distribution of half-press food in restaurants
43. modify preparing of food in restaurants pizza shop and grocery store
44. Modify food labels
